

## **Activity # 2**

**Title: Capacity building on planning and management for middle management health and allied personnel among community-based workforce using currently revised Primary Health Care Management Advancement Modules (PHC. MAP. Modules)**

### **Responsible persons:**

- Dr. Napaporn Sowattanangoon
- Miss Orawan Quansri

### **Description:**

This activity package continues to utilize 67 trained experts with specific expertise from the current Work Plan Activity #2 in combination with Work Plan Activity #5. This expanded activity will utilize consultative meetings, preparation of workshops, and middle management and supervisory staff workshop for field trial in the form of qualitative research to finalize and reproduce the better learners' friendly PHC-MAP training modules

### **Concrete expected outcome:**

A newly revised and better learners' friendly PHC-MAP training modules in both Thai and English for local as well as international training and academic programmes.

### **Link with WHO activities:**
